@mattstratton

Describe your on-call situation in three words:

1:00 PM - 14 May 2018

Rich Adams @r_adams · 6h

Replying to @mattstratton

This is fine.

Josh Hull @VestigialEthics · 4h

Replying to @mattstratton @ChrisShort

You did what?

Dana Bowlin @bowlindm · 3h

Replying to @mattstratton

Just call everyone

Victor Palacio @vjpalacio · 3h

Please mute yourself

Emily Freeman @editingemily · 5h

Replying to @mattstratton

A dumpster fire.

Jan Mara @skullboxx · 4h

Replying to @mattstratton

Works in Dev!

JJ Asghar @jjasghar · 4h

Replying to @mattstratton

Back in the day?

"Scotch, scotch, scotch"

50,000 RESPONDERS RECEIVING A TOTAL OF 760 MILLION NOTIFICATIONS

50,000 RESPONDERS RECEIVING A TOTAL OF 760 MILLION NOTIFICATIONS

- ▶ 60 million notifications during dinner hours

50,000 RESPONDERS RECEIVING A TOTAL OF 760 MILLION NOTIFICATIONS

- ▶ 60 million notifications during dinner hours
- ▶ 82 million notifications during evening hours

50,000 RESPONDERS RECEIVING A TOTAL OF 760 MILLION NOTIFICATIONS

- ▶ 60 million notifications during dinner hours
- ▶ 82 million notifications during evening hours
- ▶ 250 million notifications during sleeping hours

50,000 RESPONDERS RECEIVING A TOTAL OF 760 MILLION NOTIFICATIONS

- ▶ 60 million notifications during dinner hours
- ▶ 82 million notifications during evening hours
- ▶ 250 million notifications during sleeping hours
- ▶ 122 million notifications on weekends

50,000 RESPONDERS RECEIVING A TOTAL OF 760 MILLION NOTIFICATIONS

- ▶ 60 million notifications during dinner hours
- ▶ 82 million notifications during evening hours
- ▶ 250 million notifications during sleeping hours
- ▶ 122 million notifications on weekends
- ▶ A total of 750,000 nights with sleep-interrupting notifications

50,000 RESPONDERS RECEIVING A TOTAL OF 760 MILLION NOTIFICATIONS

- ▶ 60 million notifications during dinner hours
- ▶ 82 million notifications during evening hours
- ▶ 250 million notifications during sleeping hours
- ▶ 122 million notifications on weekends
- ▶ A total of 750,000 nights with sleep-interrupting notifications
- ▶ A total of 330,000 weekend days with interrupt notifications

LET'S HAVE SOME DATA

THE MOST MEANINGFUL METRICS ON ATTRITION ARE

THE MOST MEANINGFUL METRICS ON ATTRITION ARE

- ▶ Number of days where a responder's work and life are interrupted

THE MOST MEANINGFUL METRICS ON ATTRITION ARE

- ▶ Number of days where a responder's work and life are interrupted
- ▶ Number of days when a responder is woken overnight

THE MOST MEANINGFUL METRICS ON ATTRITION ARE

- ▶ Number of days where a responder's work and life are interrupted
- ▶ Number of days when a responder is woken overnight
- ▶ Number of weekend days interrupted by notifications.

COINED THE TERM "MEME"

**IS NOW IN A MEME
ABOUT MEMES**

imgflip.com

EXAMPLES OF MEMES ARE TUNES, IDEAS, CATCH-PHRASES, CLOTHES FASHIONS, WAYS OF MAKING POTS OR OF BUILDING ARCHES. JUST AS GENES PROPAGATE THEMSELVES IN THE GENE POOL BY LEAPING FROM BODY TO BODY, SO MEMES PROPAGATE THEMSELVES IN THE MEME POOL BY LEAPING FROM BRAIN TO BRAIN VIA IMITATION.

Richard Dawkins

SNOW CRASH

SNOW CRASH

- ▶ In the book, "Snow Crash" itself is a neural-linguistic virus.

SNOW CRASH

- ▶ In the book, "Snow Crash" itself is a neural-linguistic virus.
- ▶ The bad guys figure out how to unlock it, and it spreads from hacker to hacker like a meme

SNOW CRASH

- ▶ In the book, "Snow Crash" itself is a neural-linguistic virus.
- ▶ The bad guys figure out how to unlock it, and it spreads from hacker to hacker like a meme
- ▶ Plus, lots of swordplay

SNOW CRASH

- ▶ In the book, "Snow Crash" itself is a neural-linguistic virus.
- ▶ The bad guys figure out how to unlock it, and it spreads from hacker to hacker like a meme
- ▶ Plus, lots of swordplay

**"IDEOLOGY IS A VIRUS."
– NEAL STEPHENSON**

WHAT IF YOU ARE THE SUPREME LEADER?

WHAT IF YOU ARE THE SUPREME LEADER?

- ▶ "Command and control" doesn't work

WHAT IF YOU ARE THE SUPREME LEADER?

- ▶ "Command and control" doesn't work
- ▶ Use measurement for good, not for evil

WHAT IF YOU ARE THE SUPREME LEADER?

- ▶ “Command and control” doesn’t work
- ▶ Use measurement for good, not for evil
- ▶ Avoid “executive swoop”

WHAT IF YOU ARE THE SUPREME LEADER?

- ▶ "Command and control"
- ▶ Use measurement
- ▶ Avoid "executive order"

MIDDLE MANAGEMENT TIPS

MIDDLE MANAGEMENT TIPS

- ▶ Encourage safe post-incident review spaces

MIDDLE MANAGEMENT TIPS

- ▶ Encourage safe post-incident review spaces
- ▶ Drive for a culture of learning

MIDDLE MANAGEMENT TIPS

- ▶ Encourage safe post-incident review spaces
- ▶ Drive for a culture of learning
- ▶ You hired smart people - use them

REVIEW. REVIEW. REVIEW

A CULTURE OF LEARNING

<http://bit.ly/2KpzKKW>

A CULTURE OF LEARNING

- ▶ In a generative, performance-oriented organization, "failure leads to inquiry."

<http://bit.ly/2KpzKKW>

A CULTURE OF LEARNING

- ▶ In a generative, performance-oriented organization, “failure leads to inquiry.”
- ▶ Don’t take my word for it. Ask Ron Westrum.

<http://bit.ly/2KpzKKW>

A CULTURE OF LEARNING

- ▶ In a generative, performance-oriented organization, "failure leads to inquiry."
- ▶ Don't take my word for it. Ask Ron Westrum.
- ▶ You can also ask Dr. Nicole Forsgren - @nicolefv

NORMALIZATION OF DEVIANCE

<http://bit.ly/2lhj1wV>

NORMALIZATION OF DEVIANCE

- ▶ The gradual process through which unacceptable practice or standards become acceptable. As the deviant behavior is repeated without catastrophic results, it becomes the social norm for the organization.

<http://bit.ly/2lhj1wV>

NORMALIZATION OF DEVIANCE

- ▶ The gradual process through which unacceptable practice or standards become acceptable. As the deviant behavior is repeated without catastrophic results, it becomes the social norm for the organization.
- ▶ This happened to NASA. Twice.

<http://bit.ly/2lhj1wV>

NORMALIZATION OF DEVIANCE

- ▶ The gradual process through which unacceptable practice or standards become acceptable. As the deviant behavior is repeated without catastrophic results, it becomes the social norm for the organization.
- ▶ This happened to NASA. Twice.
- ▶ In our case, we start to accept alerts or degradations as acceptable.

<http://bit.ly/2lhj1wV>

QUESTION METRICS

WHY ARE WE USING THESE NUMBERS?

WHY ARE WE USING THESE NUMBERS?

- ▶ What is the data that drive your incident process

WHY ARE WE USING THESE NUMBERS?

- ▶ What is the data that drive your incident process
- ▶ Are your metrics tied to business outcomes?

WHY ARE WE USING THESE NUMBERS?

- ▶ What is the data that drive your incident process
- ▶ Are your metrics tied to business outcomes?
- ▶ Correlation doesn't always equal causation

SIMPLE. ALWAYS.

**THE MORE RESILIENTLY THE SYSTEM IS
DESIGNED, THE MORE LIKELY IT IS TO CAUSE
A NEGATIVE BUSINESS IMPACT**

**THE MORE RESILIENTLY THE SYSTEM IS
DESIGNED, THE MORE LIKELY IT IS TO CAUSE
A NEGATIVE BUSINESS IMPACT**

Stratton's Law of Catastrophic Predestination

COMMUNICATE.

TALK TO PEOPLE

COMMUNICATE.

TALK TO PEOPLE

- ▶ Who are your customers? What are their expectations?

TALK TO PEOPLE

- ▶ Who are your customers? What are their expectations?
- ▶ Whose customer are you? Can you help them out?

TALK TO PEOPLE

- ▶ Who are your customers? What are their expectations?
- ▶ Whose customer are you? Can you help them out?
- ▶ What are the perceptions of your team?

HUMANS, PEOPLE ARE

HUMANS, PEOPLE ARE

- ▶ Consider contextual on-call

HUMANS, PEOPLE ARE

- ▶ Consider contextual on-call
- ▶ The Golden Rule

HUMANS, PEOPLE ARE

- ▶ Bake cookies

A close-up shot of a man with a mustache, wearing a military uniform, smiling slightly. He is in the foreground, and the background shows a ship's interior with other crew members and equipment.

LEARN TO TAKE COMMAND

INCIDENT COMMAND

MAKE IT NICE ON THE BRIDGE

DURING A CALL

DURING A CALL

- ▶ Have clearly defined roles

DURING A CALL

- ▶ Have clearly defined roles
- ▶ Avoid bystander effect

DURING A CALL

- ▶ Have clearly defined roles
- ▶ Avoid bystander effect
- ▶ Rally fast, disband faster

DURING A CALL

- ▶ Have clearly defined roles
- ▶ Avoid bystander effect
- ▶ Rally fast, disband faster
- ▶ Don't litigate severity

DURING A CALL

- ▶ Have clearly defined roles
- ▶ Avoid bystander effect
- ▶ Rally fast, disband faster
- ▶ Don't litigate severity
- ▶ Have a clear mechanism for making decisions

SHARING IS CARING

SHARE ALL TESTS

SHARE ALL TESTS

TESTS ARE FOR SWE AND SRE BOTH

TESTS ARE FOR SWE AND SRE BOTH

- ▶ All functional tests used in preproduction should have a corresponding monitor in production

TESTS ARE FOR SWE AND SRE BOTH

- ▶ All functional tests used in preproduction should have a corresponding monitor in production
- ▶ All monitoring functionality in production should have corresponding tests in the build/release process

TESTS ARE FOR SWE AND SRE BOTH

- ▶ All functional tests used in preproduction should have a corresponding monitor in production
- ▶ All monitoring functionality in production should have corresponding tests in the build/release process
- ▶ Monitoring is testing with at time dimension. **There should be full parity between preproduction and production.**

A close-up, low-angle shot of the droid R2-D2 from Star Wars. He is positioned in the center-left of the frame, looking towards the right. The background is a blurred desert landscape with warm, golden-hour lighting. A thin white horizontal line is positioned below the text "EVERY SPRINT".

EVERY SPRINT

DO ONE NICE THING

HELP YOUR RESPONDERS IN EACH AND EVERY SPRINT

HELP YOUR RESPONDERS IN EACH AND EVERY SPRINT

- ▶ In each sprint/work unit, add value to your responders

HELP YOUR RESPONDERS IN EACH AND EVERY SPRINT

- ▶ In each sprint/work unit, add value to your responders
- ▶ Even if it's not on a card

HELP YOUR RESPONDERS IN EACH AND EVERY SPRINT

- ▶ In each sprint/work unit, add value to your responders
- ▶ Even if it's not on a card
- ▶ You rebel, you.

ADDING VALUE

SOME EXAMPLES

SOME EXAMPLES

- ▶ Provide better context in logging (stacktraces alone don't count)

SOME EXAMPLES

- ▶ Provide better context in logging (stacktraces alone don't count)
- ▶ Remove some technical debt. Yes, you have some.

SOME EXAMPLES

- ▶ Provide better context in logging (stacktraces alone don't count)
- ▶ Remove some technical debt. Yes, you have some.
- ▶ Add some (useful) tests

SOME EXAMPLES

- ▶ Provide better context in logging (stacktraces alone don't count)
- ▶ Remove some technical debt. Yes, you have some.
- ▶ Add some (useful) tests
- ▶ Remove something unused

ADDING VALUE

- ▶ If you use feature flags, add a description field to the configuration

- ▶ If you use feature flags, add a description field to the configuration
- ▶ If you use runbooks, ensure they are up to date every time you cut a release. If you don't do this, abandon the runbook altogether (an incorrect runbook is considered harmful)

- ▶ If you use feature flags, add a description field to the configuration
- ▶ If you use runbooks, ensure they are up to date every time you cut a release. If you don't do this, abandon the runbook altogether (an incorrect runbook is considered harmful)
- ▶ SIMPLIFY, MAN!
